The **IT club** was started to increase and diversify the technical knowledge of its members. It also gives a chance for the members of the school to learn to appreciate and have fun with the technology placed in front of them.

Objectives

- To help students develop an appreciation for the role of ICT in today's society
- To guide members in computer ethics
- To improve the designing skills of students
- To provide a fun and interactive approach to ICT
- To raise awareness and promote the use of technology as a teaching/learning aid
- To improve the browsing and information gathering skills of students
- To help students become competent and confident users of ICT

Activities

- Encouraging students to attend workshops and seminars
- Organizing workshop and seminar on recent teaching – learning technologies
- Creating opportunities for using latest technologies

Teacher member :   **Mrs. A. Jeya Kavitha**
                           Assistant Professor of Computer Science

Student co-ordinator: **A. Babisha**
                           B.Ed. First year student
