Key difference between Literature and Language

Report

Resource Person : Mrs.K.Rizwana, PG Department of English, Thassim Beevi Abdul Kader College for Women, Kilakarai.

Date: 03.02.2023

Mrs. K.Rizwana from the PG department of English of **Thassim Beevi Abdul Kader College for Women, Kilakarai** had an interaction with the B.Ed. First year Pedagogy of English students of Annammal College of Education for Women. She asked questions about what language is and what literature is and developed the interaction. She posed several questions and elicited answers from the students.

Language is an intellectual body of sounds, symbols, and meaning which are regulated by grammatical rules and structure. Literature can be any work which is artistic, developed with a vivid imagination and which mirrors the culture of a region, language, ancient time or behaviour pattern of human society.

Language means the system of verbal or non-verbal signs which are used by living beings, so as to convey information, feelings, thoughts, etc. In other words, language is a method of communication, which comprise of sounds, words and grammar.

Literature is an aesthetic subject which deals with the study of work and styles of various authors and writers. On the contrary, language is the only way of communication, no matter, if it is interpersonal or intrapersonal. The whole literature is based on the language in which it is written.

Thus Mrs.K.Rizwana handled the session in an interesting way and made all student teachers of the college to participate in the interaction to understand the importance of language to enjoy literature.
